

ZAIN ALI

MERN STACK DEVELOPER

PROJECTS

Personal PortFolio

Checkout my personal portfolio site here...

<https://zain-portfolio-five.vercel.app/>

Ecommerce Site

I create a demo ecommerce site to show my skills. This demo Website is created using react framework called Next.js. For creating this site i leverage all latest react and next js features and api's. I applied newest trends in this website like next js server actions and static site generation. to view a live demo checkout this link.

Blog Site

This is another project created by me. This project is also in nextjs. In this project i use blurry image image that is the best user experience of all time. Show a blurry small size image while the actual image is loading. checkout live website here....
